# “Love All - Serve All” and “Help Ever - Hurt Never”

Our Schools and colleges draws their inspiration from the life and legacy of **Bhagawan Sri Sathya Sai Baba** whose championing of the ideal of Education as a Service to society has transformed many lives, families and communities across the globe.

He was born in the year 1926 at Puttaparthi, a small, pastoral village in India's Andhra Pradesh State. He grew up to be loved and revered as a humanitarian and a spiritual leader the world over.

His message of 'Love All- Serve All' and 'Help Ever-Hurt Never' formed the basis for all the philanthropic works in the fields of Healthcare, Education , Aqua Care and Nutrition.

Baba's simple yet effective teachings on life and spirituality continue to guide us even today. His mission of touching and transforming individuals and societies through acts of selfless love and service lives on, on & on.

Our Gurukulam Education system is based on the philosophy of our beloved Bhagawan Sri Sathya Sai Baba who firmly believed that integrated development in children is possible only with the right balance of academic, moral and spiritual education. In the recent times, we have reviewed our approach and taken necessary steps to rededicate ourselves to our Founder's vision, by imparting high quality academic education, by teaching sciences alongside spirituality, humanities, divinity, excellence and enlightenment. For the child to have a well rounded personality and be able to with stand the pressures of life. In any progressive society, there needs to be equal emphasis on Physical, Intellectual, Emotional and Spiritual aspects. Unfortunately, some or the other aspects of this holistic education philosophy is found lacking in most of the present-day educational pedagogy due to its excessive focus on the academic aspect alone, and thus this needs immediate rectification. At our institutions moral and spiritual education based on the Universal Human Values of Love, Right Conduct, Truth, Peace and Non-violence are imparted to students and taught

Sri Sathya Sai advocated **“ Education for life & Not for Earning & Living”** In his view point **“ The End of Education is Character development”**. We are keeping these two objectives in mind & designed our Curricular, co-curricular & Extra Curricular programmes in our schools and colleges.

## “Hands that serve are holier than the lips that pray”

-Sri Sathya Sai Baba

## Swami's message to students:

“ I expect from you only one thing i.e., you should transform yourselves into ideal children full of bliss, the very embodiments of Atma, proving all this to the world by your behaviour and conduct in life. That alone is True Education. All other types of education are only its limbs and parts.”

“The cultivation of human values alone is education.”

Duty, Devotion, Discipline & Love

It is said that there are two goals of education - jivana upadhi, ( Education that imparts knowledge and skills to lead lives ) and jivita paramavadhi, ( Self-realisation, which is the ultimate goal of life.) Students at the Sri Sathya Sai schools & colleges are exposed to a unique learning model that isn't just limited to classrooms, hostel rooms , dining halls and playground, students are exposed to values and life lessons everywhere – education with the heart. Students are engaged at an intellectual, emotional, logical, ethical and spiritual level, inspiring and prodding them to always listen to, and act from the wisdom that's latent within. Therefore, the unique feature of our Institutions is to impart sound, liberal, high quality 'Man-Making' education on modern lines, blending it with the noble values of Indian heritage in an atmosphere of Duty, Devotion, Discipline, & Love and Mutual Cooperation. Sri Sathya Sai Baba, considered education, not as accumulation of information rather a means of transformation`

“Life is a game, play it.” “Life is a challenge, achieve it.”

-Sri Sathya Sai Baba
